Section 1: Identification of the substance or mixture and the company

1.1. Product Identifier

EM-Tec AG42 strong conductive silver cement

1.2 Relevant identified uses of the substance or mixture and uses advised against

Against electrostatic charge, bonding SEM samples and making grounding paths for SEM samples

1.3. Details of the supplier of the Safety Data Sheet

Vof Micro to Nano
Wateringweg 79
2031EK Haarlem
Netherlands
Tel: +31(0)85-2013155
E: info@microtonano.com

1.4 Emergency telephone number

112 (NLD) or your national emergency telephone number for chemical spills, leaks, fires, exposures or accidents

Section 2: Hazards identification

2.1. Classification of the substance or mixture

<table>
<thead>
<tr>
<th>Physical:</th>
<th>Health:</th>
<th>Environment:</th>
<th>Other hazards:</th>

Classification according to Regulation EC Nr. 1272/2008

F: HIGHLY FLAMMABLE
Xi: Irritant
Xn: Harmful
Safety Data Sheet

Product name: EM-Tec AG42 conductive silver cement
Document Nr.: SDS0015002142-01

Date: December 14th 2015
Version: 1.0

Health:
- R36: Irritating to eyes
- R38: Irritating to skin
- R48/20: Harmful: danger of serious damage to health by prolonged exposure through inhalation
- R62 (3): Possible risk of impaired vertility
- R63 (3): Possible risk of harm to the unborn child
- R67: Vapours may cause drowsiness and dizziness

Physical Environment:
- R11: Highly flammable

Environment:
- R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment

Other hazards:
- Not classified

2.2 Labeling elements

Labelling accordance to Regulation EC Nr. 1272/2008

Hazard pictogramm(s):
- Flammable
- Health hazard
- Inhalation hazard
- Environmental hazard

Signal word: Danger

Hazard statement(s):
- H225: Highly flammable liquid and vapour
- H315: Causes skin irritation
- H319: Causes serious eye irritation
- H336: May cause drowsiness or dizziness
- H361d: Suspected of damage to the unborn child
- H373: May cause damage to organs through prolonged or repeated exposure
- H410: Very toxic to aquatic life with long lasting effects

Precautionary statement(s)

Prevention:
- P102: Keep out of reach of children
- P201: Obtain special instructions before use
- P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking
- P233: Keep container tightly closed
- P241: Use explosion proof electrical/ventilating/lighting/intrinsically safe equipment
- P242: Use only non-sparking tools
- P243: Take precautions against static discharge
- P260: Do not breath dust/fumes/gas/mist/vapours/spray
- P270: Do not eat, drink or smoke when using this product
- P271: Use outdoors or in well ventilated area (fume hood)
- P273: Avoid release to the environment
- P280: Wear protective gloves/protective clothing/eye protection/face protection

I www.microtonano.com
Response:

P301+P310: If swallowed: Immediately call a poison Center/doctor/physician/first aider
P308+P313: If exposed or concerned: Get medical attention
P331: No NOT induce vomiting
P312: Call a poison center/doctor/physician/first aider if you feel unwell
P370+378: In case of fire: Use alcohol resistant foam or protein foam for extinction
P305+P351+P338: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses if easy to do. Continue rinsing.
P337+P313: If eye irritation persists: Get medical attention
P302+P352: If on skin: Wash with plenty of water and soap.
P303+P361+P353: If on skin (or hair): Take of immediately all contaminated clothing.
   Rinse skin with water/shower
P304+P340: If inhaled: Remove person to fresh air and keep comfortable for breathing
P332+P313: If skin irritation occurs: Get medical attention
P362+P364: Take of contaminated clothing and wash before reuse
   P391: Collect spillage

Storage:
P403+P235: Store in a well-ventilated place. Keep cool
P403+P235: Store in a well-ventilated place. Keep container tightly closed
P405: Store locked up

Disposal:
P501-2: Dispose of contents/container to an authorised waste collection point

Supplemental hazard info:

2.3 Other hazards

Inhalation may produce health damage
Cumulative effects may result following exposures
Limited evidence of a carcinogenic effect

Section 3: Composition / information on components

(* Explanation notes: see section 16)
Section 4: First aid measures

4.1. Description of first aid measures

Contact with eyes: Rinse cautiously with water for several minutes. If possible, remove contact lenses. Continue rinsing. Seek medical attention if irritation persists.

Contact with skin: Wash with water and soap. Seek medical attention if irritation persists.

Inhalation: Fresh air, keep warm and at rest. Seek medical attention of ill effects occur

Ingestion: If swallowed, do not induce vomiting. Seek immediate medical advice If vomiting appears imminent or occurs hold patient’s head down, lower than their hips to help avoid possible aspiration of vomitus. Never give liquid to a person with reduced awareness. Give water to rinse out mouth, then provide water slowly as much as casually can comfortably drink Avoid giving milk or oils Avoid giving alcohol

4.2. Important symptoms and effects, either immediate or delayed

Inhalation: Excessive inhalation of solvent vapours may give rise to nausea, blurred vision, fatigue, headaches and dizziness

Ingestion: May cause respiratory and digestive tract irritation Symptoms: sore throat, abdominal pain, nausea, vomiting

Skin contact: Mildly irritating to skin Symptoms: redness and pain

Eye contact: Irritating to eyes Symptoms: redness and pain, impaired vision

4.3. Indication of any immediate medical attention and special treatment

General advise: If you feel unwell, seek medical advice; show product label if possible If symptoms persist, always call a doctor
Section 5: Firefighting Measures

5.1. Extinguishing media

Use dry sand, graphite powder, dry sodium based extinguishers
Do not use water, CO2, foam or halogenated fire extinguishing agents

5.2 Special hazards arising from the substance or mixture

Chemical reaction with CO2 may produce flammable and explosive methane
Reacts with acids producing flammable / explosive hydrogen gas
Avoid exposure to oxidising agents

5.3 Advice to firefighters

Fight fire from a safe distance, with adequate cover
Metal dust fires may burn violently or may be explosively reactive
In case of fire; do not breathe fumes
Wear self-contained breathing apparatus for fire fighting

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Shut off all ignition sources
Do not allow metal dust of fine particles to accumulate
Ensure adequate ventilation
Wear suitable protective clothing including eye/face protection

6.2 Environmental precautions

Avoid release to the environment
Do not allow to enter public sewers and waterways

6.3 Methods and material for containment and clean up

Absorb spillage in suitable inert material
Clean up spills immediately
Avoid breathing vapours
Control personal contact with the substance, by using protective equipment
Collect spillage, absorbed spillage and wipes in a flammable waste container
Wash spill area with soap and water to remove last traces of residue
Section 7: Handling and storage

7.1. Precautions for safe handling

Keep away from sources of ignition
Take precautions against static discharges
Equipment should be grounded
Use explosion proof electrical/ventilating/lighting/...../equipment
Only use non-sparking tools
Do not breathe aerosols or vapours
Avoid accumulating of metal dust and fine particles
Ensure adequate ventilation
Avoid contact with skin and eyes
Wash thoroughly after use
Wear protective gloves/protective clothing/eye protection/face protection
Have eyewash bottles available

7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed, in a cool, well ventilated place
Keep away from ignition sources
Store away from oxidising agents
Keep cool
Keep out of reach of children

7.3 Specific end uses(s)

Against electro-static charge
Making grounding paths.
Bonding SEM specimens
Section 8: Exposure control and personal protection

8.1. Control parameters

Exposure limits

Occupational exposure limits (OEL)

8.2 Exposure controls

Control procedures: Ensure adequate ventilation
Keep away from heat sources and ignition sources
Take precautions against static discharges

Personal protection: Take precautions to avoid contact with eyes and skin when handling the products
Ensure adequate ventilation

Inhalation: In case of insufficient ventilation, wear suitable respiratory equipment:
Air purifying respirator with organic gas/vapour cartridge (type A)

Hands and skin: Wear suitable gloves against chemicals; recommended gloves:
Nitrile

Eyes: Wear safety goggles or full face protection

Section 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

- **Appearance/physical state:** Liquid
- **Colour:** Metallic silver
- **Odour:** Solvent
- **pH:** not applicable
- **Boiling point/range:** 56°C
- **Flash point:** -17°C (closed cup)
- **Evaporation rate:** >1
- **Explosion limits:** upper limit: 11%
  lower limit: 1%
- **Vapour pressure:** 1 Kpa
- **Relative density:** 1.65 g/cm3 @ 20°C
- **Solubility in water:** partly miscible
- **Auto-ignition:** >315°C
- **Viscosity:** >34 cSt

9.2 Other information

- **VOC:** Not available

Section 10: Stability and reactivity

10.1. Reactivity

No hazardous reactions known if used for its intended purposes

10.2 Chemical stability

Stable at normal temperatures and pressures

10.3 Possibility of hazardous reactions

No hazardous reactions known if used for its intended purposes

10.4 Conditions to avoid

Avoid overheating, ignition sources and incompatible substances

Safety Data Sheet

Product name: EM-Tec AG42 conductive silver cement
Document Nr.: SDS0015002142-01

Date: December 14th 2015
Version: 1.0

10.5 Incompitable materials

Strong oxidising agents, strong acids

10.6 Hazardous decomposition products

Methane, hydrogen, CO, CO2, nitrous oxides and smoke

Section 11: Toxicological information

11.1. Information on toxicological effects

Information on likely routes of exposure:

Inhalation: Inhalation of solvent vapours may give rise to nausea, headaches and dizziness
Skin contact: Prolonged skin contact will result in defattening of the skin, leading to irritation and in some cases to dermatitis
Eye contact: Irritation to eyes

12.5 Results of PBT and vPvB assessment

No information available

12.6 Hazardous decomposition products

No experimental data available

Section 13: Disposal considerations

13.1. Waste treatment methods

Product: This material and its container must be disposed of in a safe way. Containers may still present a chemical hazard when empty. Do not discharge into drains or the environment, dispose to an authorised waste collection point.

National regulations: Disposal should be in accordance with local, state or national legislation.
Section 14: Transport information

Labels required:

14.1. UN number

UN-number: 1263

14.2 UN proper shipping name

Proper shipping name: PAINT

14.3 Transport hazard class(es)

Class: 3
ADR/RID-Classification code: F1

14.4 Packing group

Packing: II
Limited Quantity: 5L

14.5 Incompatible materials

ADR/RID-Environmentally hazardous: Not applicable
IMDG-Marine pollutant: No relevant data
IATA/ICAO-Environmentally hazardous: No relevant data

14.6 Special precautions for user

ADR/RID-Tunnelcode: (D/E)
IMDG-EMS: F-E, S-E
IATA/ICAO-PAX: 353
IATA/ICAO-CAO: 364
IATA/ICAO-DGR: Y341

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code

Not applicable
Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

UN-number: 1263

15.2 Chemical safety assessment

No information available

Section 16: Other information

RoHS Directive Compliant
This product is fully compliant with the directive 2100/65/EU Annex II (RoHS). It does not contain any lead, cadmium, mercury, hexavalent chromium, PBB’s or PBDE’s.

WEEE
This product is not a piece of electrical or electronic equipment, and it therefore not governed by Directive 2002/96/EC on waste electrical and electronic equipment (WEEE)

Abbreviations:
Asp. Tox Aspiration hazard
Carc. Carcinogenicity
Exp. Exposure

DSD / DPD label elements

Full Text Risk and Hazard codes

H220 – Extremely flammable gas.
H226 – Flammable liquid and vapour.
H228 – Flammable solid
H301 – Toxic if swallowed.
H302 – Harmful if swallowed.
H304 - May be fatal id swallowed and enters airways.
H311 – Toxic in contact with skin.
H314 – Causes severe skin burn and eye damage.
H317 – May cause an allergic skin reaction.
H331 – Toxic if inhaled.
H332 – Harmful if inhaled.
H335 – May cause respiratory irritation.
H340 – May cause genetic defects.
H350 – May cause cancer.
H351 – Suspected of causing cancer.
H360 – May damage fertility or the unborn child.
H361 – Suspected of damaging fertility or the unborn child.
H362 – May cause harm to breast-fed children.
H370 – Causes damages to organs.
H371 – May cause damage to organs.
H372 – Causes damage to organs through prolonged or repeated exposure.
H400 – Very toxic to aquatic life.
H410 – Very toxic to aquatic life with long lasting effects.
H411 – Toxic to aquatic life with long lasting effects.
H413 – May cause long lasting harmful effects to aquatic life.
R10 – Flammable.
R20- Harmful by inhalation.
R20/22 – Harmful by inhalation and if swallowed.
R36 – Irritating to eyes.
R37 – Irritating respiratory system.
R38 – Irritating to skin.
R52 – Harmful to aquatic organisms
R63 – Possible risk of harm to the unborn child.
R65 – Harmful – May cause long damage if swallowed
R66 – Repeated exposure may cause skin dryness and cracking.
Safety data Sheet

Product name: EM-Tec AG42 conductive silver cement
Document Nr.: SDS0015002142-01
Date: December 14th 2015
Version: 1.0

Safety advice:
S02 – Keep out of reach of children.
S09 – Keep container in a well ventilated place.
S13 – Keep away from food, drink and animal feeding stuff.
S16 – Keep away from sources of ignition. No smoking.
S23 – Do not breath gas/fumes/vapour/spray.
S26 – In case of contact with eyes, rinse with plenty of water and seek medical help.
S281 – After contact with skin, wash immediately with detergent and plenty of waterways.
S29 – Do not empty in drains.
S33 – Take precautionary measures against static discharges.
S35 – This materials and its container must be disposed of in a safe way.
S36 – Wear suitable protective clothing.
S37 – Wear suitable gloves.
S38 – In case of insufficient ventilation, wear suitable respiratory equipment.
S39 - Wear eye / face protection.
S40 – In case of insufficient ventilation, wear suitable respiratory equipment.
S41 – In case of fire and/or explosion; DO NOT breathe fumes.
S43 – In case of fire use....
S45 – In case of accident or if you feel unwell, immediately contact Doctor or Poisons information center (show label if possible).
S46 – If swallowed, seek immediate medical advice and show label if possible.
S52 – Not recommended for interior use on large surfaces.
S53 – Avoid exposure – obtain special instructions before use.
S56 – Dispose of this materials and its container at hazardous or special waste collection point.
S57 – Use appropriate container to avoid environment contamination.
S61 – Avoid release to the environment
S63 – In case of accident by inhalation, remove casualty to fresh air and keep at rest.
S64 – If swallowed, rinse mouth with water (only if person is conscious)

This product should be stored, handled and used in accordance with good industrial hygiene practices and in accordance with any legal regulation.
The information contained herewith is based on the present state of our knowledge and is intended to describe the product from the point of view of safety requirements. It does not guarantee any specific properties.
It is the responsibility of the user to query and verify any information seeming suspect or where doubt on the validity may exist. The buyer assumes all responsibility of using and handling the product in accordance with local, state, federal and international regulations.
