Section 1: Identification of the substance or mixture and the company

1.1. Product Identifier

EM-Tec AG46 water-based conductive silver paint

1.2 Relevant identified uses of the substance or mixture and uses advised against

Against electrostatic charge, bonding SEM samples and making grounding paths for SEM samples

1.3. Details of the supplier of the Safety Data Sheet

Vof Micro to Nano
Wateringweg 79
2031EK Haarlem
Netherlands
Tel: +31(0)85-2013155
E: info@microtonano.com

1.4 Emergency telephone number

112 (NLD) or your national emergency telephone number for chemical spills, leaks, fires, exposures or accidents

Section 2: Hazards identification

2.1. Classification of the substance or mixture

Physical: None
Health: Reproductive Toxicity Category 1A
Environment: Chronic aquatic hazard category 1
Other hazards: None

Classification according to Regulation EC Nr. 1272/2008

Xn: Harmful

Health: R60: May impair fertility
R61: May cause harm to the unborn child
Physical: Not classified
Environment: R50/53: Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment
Other hazards: Not classified
2.2 Labeling elements

Labelling accordance to Regulation EC Nr. 1272/2008

Hazard pictogram(s):

Signal word: Danger

Hazard statement(s): H360: May damage fertility or the unborn child H410: Very toxic to aquatic life with long lasting effects

Precautionary statement(s)
Prevention: P102: Keep out of reach of children P201: Obtain special instructions before use P 273: Avoid release to the environment P280: Wear protective gloves/protective clothing/eye protection/face protection

Response: P308+P313: If exposed or concerned: Get medical advice / attention P391: Collect spillage

Storage: P405: Store locked up

Disposal: P501: Dispose of contents/container in accordance with local regulations

Supplemental hazard info: None

2.3 Other hazards

Inhalation may produce health damage
Cumulative effects may result following exposures
N-Methyl-2-pyrrolidone is listed as ECHA candidate for the list of Substances of Very High Concern (SVHC)

Section 3: Composition / information on components

3.1. Substances

Not applicable
3.2 Mixtures

(* Explanation notes: see section 16)

Section 4: First aid measures

4.1. Description of first aid measures

- **Contact with eyes:** Rinse cautiously with water for several minutes. If possible, remove contact lenses. Continue rinsing. Seek medical attention if irritation persists.
- **Contact with skin:** Wash with water and soap. Seek medical attention if irritation persists.
- **Inhalation:** Fresh air, keep warm and at rest. Seek medical attention if ill effects occur.
- **Ingestion:** If swallowed, do not induce vomiting. Seek immediate medical advice. If vomiting appears imminent or occurs hold patient's head down, lower than their hips to help avoid possible aspiration of vomitus. Never give liquid to a person with reduced awareness.
Give water to rinse out mouth, then provide water slowly as much as casually can
comfortably drink
Avoid giving milk or oils
Avoid giving alcohol

4.2. Important symptoms and effects, either immediate or delayed

| Inhalation: | Not normally a hazard due to the non-volatile nature of product |
| Ingestion: | Not classified |
| Skin contact: | Not known to produce adverse health effects or skin irritation |
| Eye contact: | Not known to be an eye irritant, direct contact with the eye should be avoided and may cause transient discomfort characterized by tearing or redness |

4.3. Indication of any immediate medical attention and special treatment

General advice:
If you feel unwell, seek medical advice; show product label if possible
If symptoms persist, always call a doctor

Section 5: Firefighting Measures

5.1. Extinguishing media

Use dry sand, graphite powder, dry sodium based extinguishers
Do not use water, CO2, foam or halogenated fire extinguishing agents

5.2 Special hazards arising from the substance or mixture

Reacts with acids producing flammable / explosive hydrogen gas
Avoid exposure to oxidising agents

5.3 Advice to firefighters

Fight fire from a safe distance, with adequate cover
Metal dust fires may burn violently or may be explosively reactive
In case of fire; do not breathe fumes
Wear self-contained breathing apparatus for fire fighting
Safety Data Sheet

Product name: EM-Tec AG46 water-based conductive silver paint
Document Nr.: SDS0015002146-01

Date: October 17th 2017
Version: 1.0

Section 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Do not allow metal dust of fine particles to accumulate
Wear suitable protective clothing including eye/face protection

6.2 Environmental precautions

Avoid release to the environment
Do not allow to enter public sewers and waterways

6.3 Methods and material for containment and clean up

Absorb spillage in suitable inert material
Clean up spills immediately
Control personal contact with the substance, by using protective equipment
Collect spillage, absorbed spillage and wipes in a flammable waste container
Wash spill area with soap and water to remove last traces of residue

6.4 Reference to other sections

For further information see section 8

Section 7: Handling and storage

7.1. Precautions for safe handling

Avoid accumulating of metal dust and fine particles
Ensure adequate ventilation
Avoid contact with skin and eyes
Wash thoroughly after use
Wear protective gloves/protective clothing/eye protection/face protection
Have eyewash bottles available

7.2 Conditions for safe storage, including any incompatibilities

Keep container tightly closed, in a cool, well ventilated place
Store away from oxidising agents
Keep cool
Keep out of reach of children
Section 8: Exposure control and personal protection

8.1. Control parameters

Exposure limits

Occupational exposure limits (OEL)

8.2 Exposure controls

**Control procedures:** Ensure adequate ventilation

**Personal protection:** Take precautions to avoid contact with eyes and skin when handling the products

**Inhalation:** In case of insufficient ventilation, wear suitable respiratory equipment:

**Hands and skin:** Wear suitable gloves against chemicals; recommended gloves: Nitrile

**Eyes:** Wear safety goggles or safety glasses with side shields

Section 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

- **Appearance/physical state:** Liquid
- **Colour:** Metallic silver
- **Odour:** Solvent
- **pH:** not applicable
- **Boiling point/range:** 100°C
- **Flash point:** Not available
- **Evaporation rate:** Not available
Explosion limits: upper limit: Not available
lower limit: Not available
Vapour pressure: 2.3 Kpa
Relative density: 1.5 g/cm3 @ 20°C
Solubility in water: miscible
Auto-ignition: Not available
Viscosity: 195 cP

9.2 Other information

VOC: None

Section 10: Stability and reactivity

10.1 Reactivity

No hazardous reactions known if used for its intended purposes

10.2 Chemical stability

Stable at normal temperatures and pressures

10.3 Possibility of hazardous reactions

No hazardous reactions known if used for its intended purposes

10.4 Conditions to avoid

Avoid incompatible substances

10.5 Incompatible materials

Strong oxidising agents, strong acids

10.6 Hazardous decomposition products

Methane, hydrogen, CO, CO2, nitrous oxides and smoke
Section 11: Toxicological information

11.1. Information on toxicological effects

Information on likely routes of exposure:

Inhalation: Not thought to produce adverse health effects or irritation of the respiratory tract
Skin contact: Not thought to produce adverse health effects or skin irritation following contact
Eye contact: Irritation to eyes

12.5 Results of PBT and vPvB assessment

No information available

12.6 Hazardous decomposition products

No experimental data available

Section 13: Disposal considerations

13.1. Waste treatment methods

Product: This material and its container must be disposed of in a safe way. Do not discharge into drains or the environment, dispose to an authorised waste collection point.

National regulations: Disposal should be in accordance with local, state or national legislation.
14.1. UN number

UN-number: 3082

14.2 UN proper shipping name

Proper shipping name: Environmentally Hazardous Substance Liquid, N.O.S.

14.3 Transport hazard class(es)

Class: 9
ADR/RID-Classification code: M6

14.4 Packing group

Packing: III
Limited Quantity: 5L

14.5 Incompatible materials

ADR/RID- Environmentally hazardous: Not applicable
IMDG-Marine pollutant: No relevant data
IATA/ICAO-Environmentally hazardous: No relevant data

14.6 Special precautions for user

Not applicable

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC code

Not applicable

Section 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

UN-number: 3082

15.2 Chemical safety assessment

No information available
Section 16: Other information

RoHS Directive Compliant
This product is fully compliant with the directive 2100/65/EU Annex II (RoHS). It does not contain any lead, cadmium, mercury, hexavalent chromium, PBB's or PBDE's.

WEEE
This product is not a piece of electrical or electronic equipment, and it therefore not governed by Directive 2002/96/EC on waste electrical and electronic equipment (WEEE)

Abbreviations:
- Asp. Tox: Aspiration hazard
- Carc.: Carcinogenicity
- Cat.: Category
- Exp.: Exposure
- Flam.: Flammable
- GHS: Global Harmonised System of Classification of Labelling Chemicals
- Irrit.: Irritant
- LC50: Lethal Concentration 50%
- LCl0: Lowest published lethal concentration
- LD50: Lethal Dose 50%
- N/A: Not applicable
- N/E: Not estimated
- PBT: Persistent Bioaccumulative and Toxic
- WEL: Workplace Exposure Limit
- Repr.: Reproductive toxicant
- RoHS: Restriction of Hazardous Substance
- SEM: Scanning Electron Microscope
- STEL: Short-Term Exposure Limit
- STOT: Specific Target Organ Toxicity
- TCl0: Lowest published toxic concentration
- vPvB: very Persistent and very Bioaccumulative
- WEEE: Waste Electrical and Electronic Equipment

Full Text Risk and Hazard codes

- H226 – Flammable liquid and vapour.
- H228 – Flammable solid
- H302 – Harmful if swallowed.
- H312 – Harmful in contact with skin.
- H314 – Causes severe skin burns and eye damage
- H315 – Causes skin irritation.
- H317 – May cause an allergic skin reaction.
- H319 – Causes serious eye irritation.
- H332 – Harmful if inhaled.
- H334 – May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- H335 – May cause respiratory irritation.
- H340 – May cause genetic defects.
- H351 – Suspected of causing cancer.
- H360 – May damage fertility or the unborn child.
- H360D – Suspected of damaging the unborn child.
- H370 – Causes damages to organs.
- H371 – May cause damage to organs.
- H372 – Causes damage to organs through prolonged or repeated exposure.
- H400 – Very toxic to aquatic life.
- H410 – Very toxic to aquatic life with long lasting effects.
- H411 – Toxic to aquatic life with long lasting effects.
- H413 – May cause long lasting harmful effects to aquatic life.

- R10 – Flammable.
- R20 – Harmful by inhalation.
- R20/22 – Harmful by inhalation and if swallowed.
- R36 – Irritating to eyes.
- R37 – Irritating respiratory system.
- R38 – Irritating to skin.
- R52 – Harmful to aquatic organisms
- R63 – Possible risk of harm to the unborn child.
- R65 – Harmful – May cause long damage if swallowed
- R66 – Repeated exposure may cause skin dryness and cracking.

Safety advice:

- S02 – Keep out of reach of children.
- S09 – Keep container in a well-ventilated place.
- S13 – Keep away from food, drinks, and animal feeding stuff.
S16 – Keep away from sources of ignition. No smoking.
S23 – Do not breath gas/fumes/vapour/spray.
S26 – In case of contact with eyes, rinse with plenty of water and seek medical help.
S281 – After contact with skin, wash immediately with detergent and plenty of waterways.
S29 – Do not empty in drains.
S33 – Take precautionary measures against static discharges.
S35 – This material and its container must be disposed of in a safe way.
S36 – Wear suitable protective clothing.
S37 – Wear suitable gloves.
S38 – In case of insufficient ventilation, wear suitable respiratory equipment.
S39 - Wear eye / face protection.
S40 – In case of insufficient ventilation, wear suitable respiratory equipment.
S41 – In case of fire and/or explosion; DO NOT breathe fumes.
S43 – In case of fire use....
S45 – In case of accident or if you feel unwell, immediately contact Doctor or Poisons information center (show label if possible).
S46 – If swallowed, seek immediate medical advice and show label if possible.
S52 – Not recommended for interior use on large surfaces.
S53 – Avoid exposure – obtain special instructions before use.
S56 – Dispose of this material and its container at hazardous or special waste collection point.
S57 – Use appropriate container to avoid environment contamination.
S61 – Avoid release to the environment
S63 – In case of accident by inhalation, remove casualty to fresh air and keep at rest.
S64 – If swallowed, rinse mouth with water (only if person is conscious)

This product should be stored, handled, and used in accordance with good industrial hygiene practices and in accordance with any legal regulation.

The information contained herewith is based on the present state of our knowledge and is intended to describe the product from the point of view of safety requirements. It does not guarantee any specific properties.

It is the responsibility of the user to query and verify any information seeming suspect or where doubt on the validity may exist. The buyer assumes all responsibility of using and handling the product in accordance with local, state, federal and international regulations.
